DETAILED ACTION

1. Claims 1-19, are pending and has been examined.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-19, are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3, 7-8, 10-20 and 23-25 of U.S. Patent No. 6,654,724.

Although the conflicting claims are not identical, they are not patentably distinct from each other.

Claim 1 of the U.S. Patent No. 6,654,724 is obvious variant of claim 1 of the current application since the main difference is substituting or changing patient's identity information with customer's identity information a variation of U.S. Patent 6,654,724. Both systems perform same operation and output same or equivalent results.

Claim 2 is obvious variant of Patent claim 2; Claim 3 is a verbatim copy of Patent claim 3 and 19; Claim 4 is a verbatim copy of Patent claim 23; Claim 5 is obvious variant of Patent claim 10 and 24; Claim 6 is a verbatim copy of patent claim 12; Claim 7 is a verbatim copy of patent claim 7; Claim 8 is verbatim copy of patent claim 8; Claim 9 is obvious variant of Patent claim 9; Claim 10 is verbatim copy of Patent claim 11. Claim 11 is obvious variant of patent claim 15; Claim 12 is obvious variant of patent claim 16; Claim 13 is a verbatim copy of patent claim 17; Claim 14 is a verbatim copy of patent claim 18; Claim 15 is a verbatim copy of patent claim 19; Claim 16 is a verbatim copy of patent claim 20; Claim 17 is a verbatim copy of patent claim 25; Claim 18 is obvious variant of patent claims 1, 10, 13 and 14; Claim 19 is a verbatim copy of Patent claim 12.

Accordingly, it would have been obvious to one of ordinary skill in the art at the time of applicant's invention to modify claims 1-3, 7-8, 10-20 and 23-25 of the U.S. Patent No. 6,654,724 by adding and/or removing the limitations resulting generally in the claims of the

present application since the present application and the claims recited in U.S. Patent No. 6,654,724 actually perform the same or similar function. It is well settled that the omission of an element and its function is an obvious expedient if the remaining elements perform the same function as before. *In re Karlson*, 136 USPQ 184 (CCPA 1963; *Also note Ex parte Rainu*, 168 USPQ 375 (Bd. App. 1969). Omission of a reference element whose function is not needed would be obvious to one of ordinary skill in the art.
